Just finding out about his death. I am in shock as it wasn't too long ago we had made plans to go fly drones. I had loaned him a couple of projects he wanted to work on a motorized TV car and a helicopter rc. I also let him try to get a neat drone working. We were going to drone it up. My deepest condolences goes out to his family. I have a video of him flying my drone. If like will send family or friend copy of it. Be at peace my friend!!!
