I just read this and it's really sad whoever wrote this did not mention Her significant other of 20 years Don Rybolt. She loved him more than anything and loved spending with him. She would of wanted his name mention cause that who she was. Terry I miss you and this seems so unreal and Don is hurting bad we always joked and asked what you was going to do if anything ever happen to him but the truth is he don't know what to do with out you he loved more than he ever showed but you knew how much. We love and miss you so much
